

## SPIJKSTAAL 301 - 301L - 301LZ

The Spijckstaal 301 is particularly suitable for towing light loads for short distances and on flat floors. With this kind of transport the driver leaves the cabin continuously. It has become clear that using a seatless tractor with a low step is much more efficient and less tiring for the driver. The 301 is valued for its extreme manoeuvrability, perfect ergonomics, fast acceleration, compact size and low weight.
